

FITTING INSTRUCTIONS FOR  
MINI ONE / COOPER / COOPER **S**  
POOL BALL GEAR KNOB

Step 1.  
How the gear knob  
should look as standard  
in situ.

Step 2.  
Position yourself above  
the gear knob  
(with a good grip) and  
pull towards chest.

This should release  
with minimum effort!

Step 3. Without the  
gear knob the gear  
stick will look like  
this.

#### Step 4.

Apply a small amount of washing up liquid to the gear stick stump (less is more!)

#### Step 5.

Once again position yourself above the gear stick and place new pool ball onto gear stick stump.

Firmly push and twist the ball into desired position, (will require some effort!)

#### Step 6.

Job Done!

Check you can select all gears before driving. Enjoy!
